

# Resilient Reforestation Plan

## Reforestation strategy

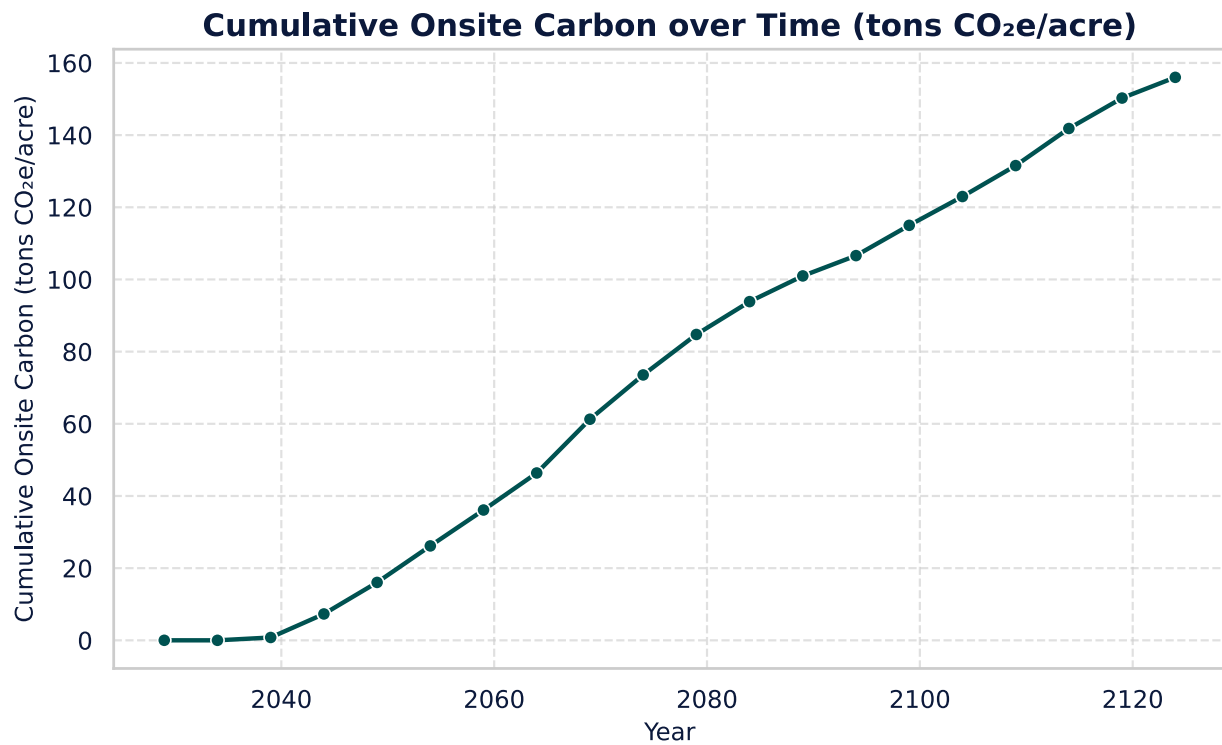

Here will be a table, showing: FVS variant, Project area, Date this report has been prepared, Survival, Site index, Species mix (TPA), etc.

This map will show the coordinate that was input in the beginning and the corresponding PN variant.

## Carbon Projections

Here will be a text explaining how the carbon graph is generated and what goes into calculating this output.

Here we can include a description or details on this figure.

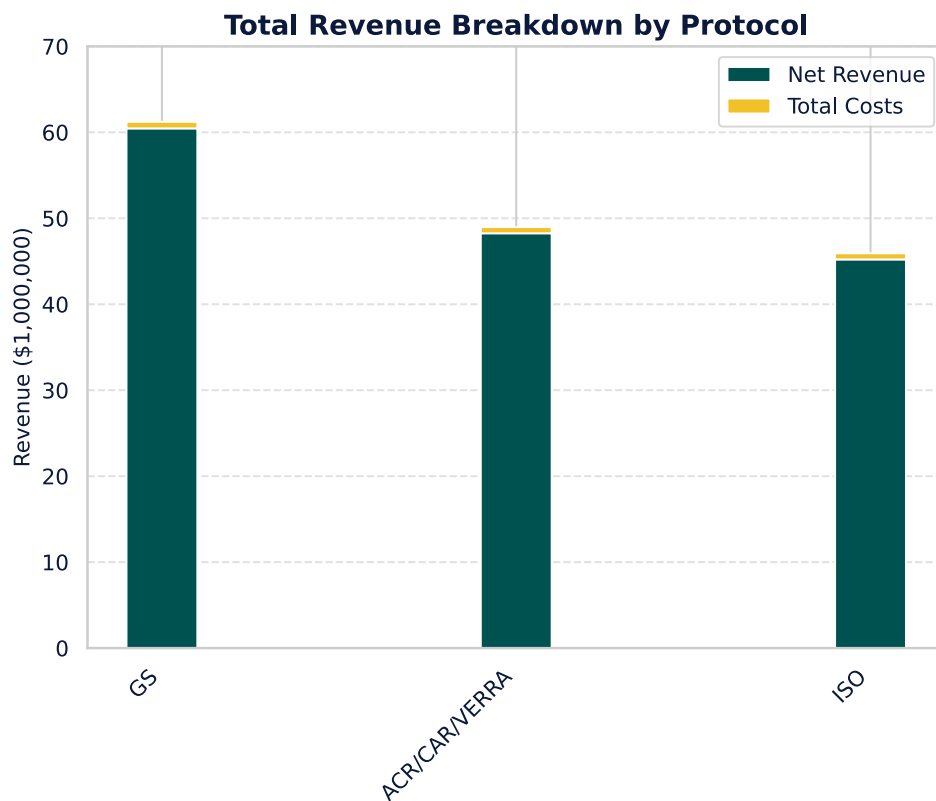

## Financial Projections

Here will be a text explaining how the financial projections are generated and what goes into calculating this output.

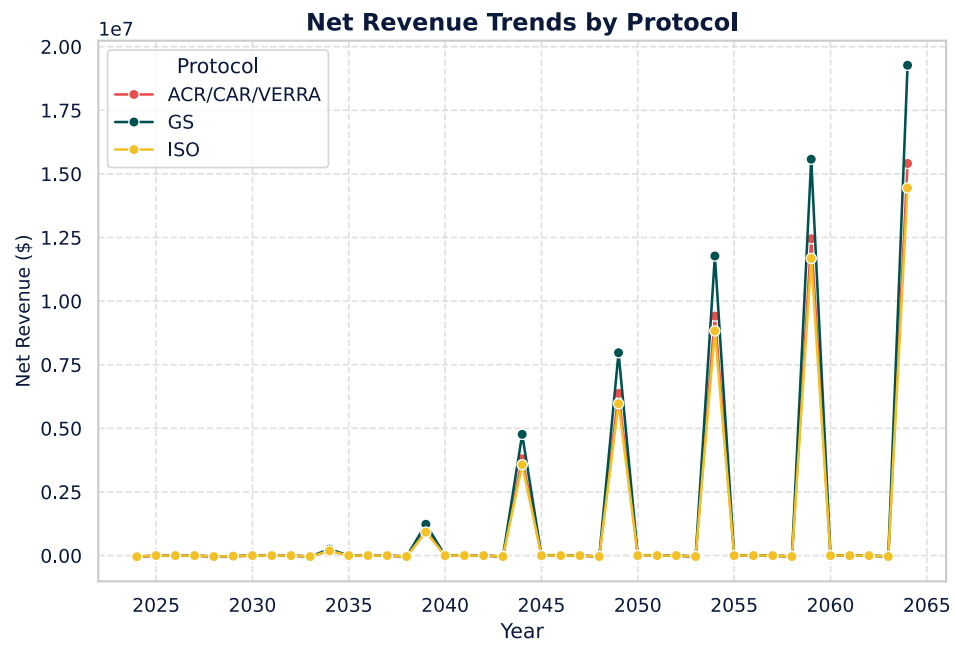

Financial projections by Net Revenue in order from highest to lowest.

Protocol	Projects	Total_Acres	Total_CUs	Total_Revenue	Total_Costs	Net_Revenue
GS	41.0	410,000.0	1,296,900.0	61,216,631.3	760,035.0	60,456,596.3
ACR/CAR/VERRA	41.0	410,000.0	1,037,700.0	48,977,223.4	721,155.0	48,256,068.4
ISO	41.0	410,000.0	973,000.0	45,924,905.8	711,450.0	45,213,455.8

More text.

Here we can include a description or more details on this figure.
